

Week One

Welcome to Week One, it is amazing to think that this is our last term together in Kindy!

This term we started exploring the ocean and what lives in it. We read the book 'Commotion in the Ocean' and brainstormed all the things we know about different sea creatures.

We did some fun under the sea craft such as using celery to paint fins on our fish, made crab and jellyfish with our hand prints and practiced our cutting skills and made hanging jellyfish. The children also played in the Fish'n'Chip Shop.

Our letter focus this week was the letter **O** and in mathematics our number of the week was 11.

As we get closer to entering pre-primary there are a few things that you can do at home to help prepare the children:

- Revise letter sounds and letter names
- Counting and identifying numerals
 - Making simple patterns
- Writing our name as often as possible
 - Doing cutting and craft

Important information:

- Dad's Reading Day- Thursday the 2nd of November. Please see newsletter for information.
