

# Kindy Term 3

## ABORIGINAL CULTURE & NAIDOC

We will begin the term by exploring Aboriginal Culture and celebrating NAIDOC

## AUSTRALIAN ANIMALS

This term we will explore many Australian Animals and learn about their classification, habitat, lives, the food they eat, their young and lots more.

## LITERACY

Our Phonemic Awareness program will focus on rhyming words, where children will be led to hear and identify these words through games and stories. We will continue to talk about how letters make sounds, practice our letter recognition and listening for initial sounds. We will continue to practice making the speech sounds through songs and actions.

We will continue to immerse children in shared and modelled reading and writing experiences. The children are making good progress with their name writing and we will continue to practice letter formation and pencil grip.

## MATHEMATICS

We continue our journey using many number skills and concepts. We will play lots of Maths games to reinforce the following: recognising, counting, ordering and subitising numbers. We will explore measurement of length and weight this term also. Our Maths games will continue to include lots of hands on activities and we will begin using games on the iPad to look at counting using a ten frame and partitioning numbers to 10.

## MORNING WORK

Our morning work stations include name writing and letter formation practice as well as fine motor games and activities to build strength in this area.

## **RELIGIOUS EDUCATION**

In Religious Education we will begin to look at the Fruits of the Holy Spirit and how we can use these in our life. We will also look at Parables and Bible stories such as 'The Lost Sheep' and 'Zacchaeus the Tax Collector'

## **TECHNOLOGY**

We will be reading 'Hello Ruby' which is an introduction into the world of coding and computers. We will explore what a computer is, how they work, where we can find them and what we use them for.

## **PLAY**

We have introduced lots of loose parts play to both our indoor and outdoor areas. The children really enjoy creating, building, experimenting and problem solving with all of the bits and pieces. You may see a bit more mess, but it is a sign of great fun and lots of learning.

Another fun filled term in Kindy!
